## 25K worth of meth found Bacliff home 1000 feet from elementary school

Galveston County police arrested 18-year-old Payton and 22-year-old Herbert Goeler after officials executed a search warrant and found 433 grams of meth in the bedroom of a home on Sevan Street.

An alleged "documented gangmember" is one of the individuals that were arrested in Bacliff Wednesday after police found 400 grams of methamphetamine with a street value of \$2,000 allegedly in their possession.

According to a release from the Galveston County Sheriff's Office, 22-year-old Herbert Goeler and 18-year-old Payton were arrested after officials executed a search warrant and found 433 grams of meth in the bedroom of a Bacliff home on Sevan Street.

Per the release, three other people were inside the home and detained. Officials also found three loaded handguns and more than \$2700 in cash, according to the release.

The home where the drugs were found was located near an elementary school, Kenneth E. Little.

"There were preventative measures taken to ensure the safety of children," the release stated. "The warrant was issued on the incident."

Goeler was charged with manufacturing and delivery of a controlled substance in a school drug-free zone and being a felon in possession of a firearm. His two bonds were set at \$250,000 each. Payton was charged with manufacturing and delivery of a controlled substance in a school drug-free zone. Her bond was set at \$250,000.
